

Non-Credited Private Schools in Kansas

“As you know, this is only as current as the school operators report to us. There may be many on this list that are no longer active and the owner/operator never notified us of this. The schools listed in the online education directory on KSDE’s website are only those that have requested to be listed.” –email received 8/13/18 from Denise Kahler, Director, Communications and Recognition Programs, Kansas Department of Education
